Capabilities Statement

Xena Cool d/b/a Xena Therapies is a Woman Owned Small Business and FDA registered manufacturer of cool therapy class I medical devices for **orthopedic injuries; post-operative recovery** for knee, shoulder, foot, back and hip **surgeries; heat stress, maternal health, menopause and MS.**

Products includes **orthopedic cool therapy devices and braces** made with a plant-based phase change material formulated to 58°F cooling that is safer than ice; long-lasting (maintains constant temperature for 60-90 minutes and reusable (reactivates in refrigerator or cooler of ice). **Cooling vests, wraps and caps for PPE, Safety, Heat Stress and MS** are available in two temperatures: 58F for cool therapy and rapid cooling: refrigerate to reactivate and reuse. 80°F for cool comfort and convenience: reactivate at room temperature or air-conditioning (no refrigeration required).

Production Capacity/Performance: Manufacturing plant has annual capacity to produce > 250,000 units running a single 40 hr/week shift. Capabilities exist for three shift production schedule. **Contract manufacturing** available for white label and special project product fulfillment requests. Fully-integrated US-based supply chain provides for uninterrupted manufacturing of high-quality products.
